Welcome to the TWAIN Working Group Newsletter!

In this issue we feature news about recent and upcoming joint events with industry organizations, some interesting reading around cybersecurity for TWAIN Direct and a list of resources to get you started on TWAIN Direct development.

The TWAIN Working Group is a not-for-profit organization which represents the imaging industry. TWAIN's purpose is to provide and foster a universal public standard which links applications and image acquisition devices. The ongoing mission of this organization is to continue to enhance the standard to accommodate future technologies. This quarterly newsletter is designed to keep you up to date on group initiatives, news and upcoming events.

The TWAIN Working Group would like to extend our warmest wishes for the holidays and beyond. May the new year bring hope and new beginnings.

What is TWAIN Direct for Scanning and Why Should It Matter to You?

The benefits of TWAIN Direct and what it means for the digital transformation industry

Thursday, January 14, 11:00 AM EST

The TWAIN Direct free, open source standard eliminates the need to install vendor-specific drivers for scanning devices and image capture software. Instead, TWAIN Direct supports direct network communication between software and hardware, to include mobile devices, providing a standard connectivity platform.

Application Developers and Scanner Manufacturers – at this webinar, learn how TWAIN Direct:

- **Shortens development time**
- **Provides a feature-rich user experience**
- **Maintains backward compatibility and OS independence**
- **Ensures security and identity management**
- **Is well-suited for small business AND enterprise**
- **Is easy to install and deploy**

Attend this informative and valuable webinar and learn how YOU can quickly and easily adopt TWAIN Direct for driverless scanning!

Webinar Panelists Include:

Joseph Odore, TWG Chair and Product Manager - Office Products, Panasonic Systems Solutions Company

Kevin Neal, TWG Board Member and CEO, P3iD Technologies

Mark McLaughlin, TWG Technical Chair and Senior Software Engineer, Kodak Alaris

New whitepaper!

Identity Management with Zero Cyber Attack Surface for TWAIN Direct

Software Developers:

Since TWAIN Direct is a web service with always-on network and internet connectivity for scanning, authentication must be required. How is the TWAIN Working Group helping ISVs develop secure applications?

The TWAIN Working Group fully realizes the importance of authentication, and is busy working on providing a specification for authentication, as well

as a series of development and certification test tools for TWAIN Direct security.

View a Detailed Presentation About the PDF/R File Format

As presented at the PDF Association's PDFest event, Oct. 5, 2020

This session discusses how PDF/R can help modernize and secure scanned image data transfer, especially in the age of cloud and mobile business workflows.

Presented by Rene Rebe, TWG Board Member and CEO, ExactCODE GmbH

Helpful Resources

The TWAIN Working Group has an entire site dedicated to forums that provide support for the developer and user community. These forums are an excellent way to get answers to all of your TWAIN questions, from actual users with years of experience. Visit our forums to learn more!

ISVs and Scanner Manufacturers - learn all the benefits of TWAIN Direct adoption AND how to get started with these helpful tools!

Consider a Donation

The TWAIN Working Group is a not-for-profit organization dependent on volunteers from our member companies for development of all specifications and associated activities. As you can imagine, developing and maintaining a royalty-free, worldwide standard takes a lot of work, time and expense. Can you help us keep TWAIN free with a **donation**?

Join Us For Upcoming Events

Capture 2021, September 8-9. This unique conference will focus on security, privacy, standards, regulations and compliance as they relate the the Capture industry, taking in to consideration the effects of COVID. Please plan to come and join other leaders at the Eaglewood Resort and Spa in Chicago, for first rate presentation content and one-of-a-kind networking opportunities.
